RE: Letter of Reference

The Delhi Unified School District has been continuously involved in new construction and modernization for at least five years. During this time frame the district has used several delivery methods including lump sum bidding, design build and construction management at risk.

Greg Opinski Construction, Inc. has performed service for the district as a construction management at risk firm.

The firm has delivered quality projects on time and within budget. The individuals involved dealt with the district honestly, knowledgeably and with integrity. It is the district's intention to continue to use Greg Opinski Construction, Inc. as a construction management firm for future projects.

It is a pleasure to recommend Greg Opinski Construction, Inc. as a highly qualified construction firm.

Sincerely,

A handwritten signature in blue ink that reads "K. McCandless".

Kirk McCandless,
Superintendent
